## **Apple II Books & Manuals - Apple Rescue of Denver**

The Apple II reference manual tries to explain this, but it seems like it is missing out on many details. The basic idea

# Access Free Apple II Reference Manual January 1979

is simple. The Apple II generates two pixels per colorburst cycle, so one can change the color by selecting which pixels are on and which are off. E.g. an alternating pattern of 010101... will give a certain color, while 101010... gives another color.
