The title to Vice President Al Gore's book — Earth in the Balance — is based on an illustration used by the White House for a 1990 conference on the environment. The illustration depicts a balance with the earth on one side and six gold bars on the other. Gore interprets the illustration to mean that the Bush administration was trying “to convince the world that the environment faces no serious dangers and that the wisdom of any effort to rescue it is outweighed by the cost” (p. 193).

Earth in the Balance: Ecology and the Human Spirit ...

Abstract. For concerned scientists frustrated by more than a decade of “business as usual” national economic and energy policy in the face of growing environmental consequences, Al Gore's book, Earth in the Balance: Ecology and the Human Spirit, can be viewed as a source for optimism. Twenty-five years of world travel and studies of the Earth's ecological problems led Gore to publish his conclusions on the environment during his campaign for vicepresident of the United States.

Earth in the Balance, by Al Gore

This sense of urgency is what motivated Gore to write Earth in the Balance. Part One of Earth in the Balance: Ecology and the Human Spirit is split up into eight chapters that review the major global threats; global warming, ozone depletion, air and water pollution, deforestation, depletion of top soil, waste disposal and loss of biodiversity. The goal of the introduction is to dispel a notion that environmental problems are not serious and those problems require little to no action to try ...
