Success in Practical/Vocational Nursing, 8th Edition - Evolve

The fundamental processes of business and management - how we organise, coordinate and direct human activity towards collective goals - have always been a feature of human life, and subject to co-evolutionary development. This means they have adapted to the changing patterns of human life, whilst seeking to satisfy the relatively unchanging forces of human nature.

In graduate school, Shubin studied how the cells of a salamander or frog come together to make bones, by staining the cells with dyes that turn bone red and cartilage blue. Shubin found that specific clumps inside the limb bud of the embryo became bones. Somehow, the cells are able to communicate and attach to one another in order to make specific materials.
