The "B" means Column B, which contains the information that's only available in Sheet 2 that you want to translate to Sheet 1. Column Number: If the table array (the range of columns you just indicated) this tells Excel which column the new data you want to copy to Sheet 1 is located in. In our example, this would be the column that "House" is located in. "House" is the second column in our range of columns (table array), so our column number is 2.
