The Man Who Loved Only Numbers is easy to love, despite his strangeness. It's hard not to have affection for someone who referred to children as "epsilons," from the Greek letter used to represent small quantities in mathematics; a man whose epitaph for himself read, "Finally I am becoming stupider no more"; and whose only really necessary tool to do his work was a quiet and open mind.

The Man Who Loved Only Numbers--A Book Review

The Man Who Loved Only Numbers. Paul Hoffman Perhaps my favourite biography of a mathematician. Paul Erdős was the most prolific mathematician of the twentieth century. He slept for only three hours a night, he worked for nineteen hours each day, and he published 1500 papers, all thanks to a constant diet of coffee and amphetamines.
