I have a 1989 Nissan Marine with a 70hp Nissan outboard motor. The boat was running fine 4 months ago when I took it out. After sitting for a while I put in a new battery and it started right up. Now, when I tried to turn the engine off, it stays running even if the key is out. I know it's not the battery causing this since the battery only start the engine and it's the exact kind of battery ...
