are essential for documentation in electronic records, for use in clinical information systems, for the development of nursing knowledge and the education of professional nurses and students.

CNC | College of Nursing | The University of Iowa

In relation to NANDA-I, NIC and NOC taxonomies, the codes of nursing diagnoses, outcomes and interventions documented in nursing care plans were recorded. In addition, clinical problems and social functioning of patients were assessed by HoNOS in its Spanish version (Uriarte et al., 1999). HoNOS is an instrument with 12 items designed to measure the whole range of physical, personal and social problems associated with mental illness.
