Technology and Ethical Idealism : a History of Development ...

Suzanne Moon's *Technology and Ethical Idealism* provides a meticulous and elegant history of the place of technology in debates about development in the late-colonial Netherlands East Indies. While most scholars and policymakers concerned with development issues will be familiar with the "small is beautiful" (Schumaker 1973) approach to development that emerged in the 1970s, few will be ...

Suzanne Moon, Technology and Ethical Idealism. A History ...

Idealism is a personal belief in moral absolutes; such that all ethical judgments are based on ethical principles and that the right actions will lead to expected results. Highly relativistic individuals refuse universal moral principles, but non-relativistic individuals accept universal principles when making ethical decisions.

Based on the previous studies idealism was more influent ethical decision making in the stage of ethical awareness than relativism, but in the ethical judgments and intentions relativism was more influent vice versa. This study will use multiple regression analysis in the determination of which one has stronger influence between these two ethical philosophies (idealism or relativism).
