The Dissociative Mind

Drawing on the pioneering work of Janet, Freud, Sullivan, and Fairbairn and making extensive use of recent literature, Elizabeth Howell develops a comprehensive model of the dissociative mind. Dissociation, for her, suffuses everyday life; it is a relationally structured survival strategy that arises out of the mind's need to allow interaction with frightening but still urgently needed others.

The Dissociative Mind in Psychoanalysis

Dissociation is one way the mind copes with too much stress, such as during a traumatic event. Experiences of dissociation can last for a relatively short time (hours or days) or for much longer (weeks or months). If you dissociate for a long time, especially when you are young, you may develop a dissociative disorder.
